

The Coffey Family News 2022

Dear family and friends,

We hope this letter finds you in good health and with thankful hearts. We have enjoyed another good year and are happy to offer this newsletter for those who have the time to read such things.

Many of our highlights emanated from Zanesville in the form of quality time spent with Wade and Susan, our five grandchildren and Sadie the Labradoodle. The grandsons, Will and Ryan, are now 11 and 10 and growing in knowledge and energy every day. The boys played soccer in the spring and fall, coached by their father Wade, and enjoyed an undefeated season this fall with Will and Ryan as key contributors to the team's success. Granddaughter Cali pursued her passion for acting this year and played the part of Hei Hei in the Zane Trace Players production of "Moana Jr." The family was so proud to see Cali — about a month prior to her ninth birthday — playing an important role in the entertaining musical.

Younger sisters Aria (5) and Nora (3) are following in their older siblings' footsteps, gaining new skills and demonstrating great curiosity as they learn about life and make new friends. Nanna and Papaw love spending time with the Coffey kids and their parents!

Visits to Zanesville have been made even more interesting as a building project unfolds at their house. The added space will provide some new bedrooms and even a guest bedroom for visiting grandparents!

Wade continues in his pastoral duties at the Muskingum Valley Vineyard Church, and Susan remains very busy as wife, mother and chief homeschooling official.

Our son Colin and his wife Ashley are maintaining a busy lifestyle in the Columbus area. Late last year Colin purchased the building where his JSR Recording Studio is located, and he also has converted a room at their Reynoldsburg home into a mixing room where he can work from home. Ashley remains employed at Lextant in Columbus and still

takes accounting classes in the hope of one day becoming a CPA.

Colin remains chief technical consultant and helps Ron with computer, guitar and amplifier issues. In October, longtime Cincinnati Bengals fans Colin and Ron enjoyed attending the Bengals vs. Falcons game with some friends with temperatures in the 70s.

For Ron and Dianna, the year has flown by with Dianna working at the bakery in Leesburg and being involved in a host of church activities. Ron served in several volunteer organizations while maintaining his role as guitarist in the classic rock band Dumbfounded.

Fun stuff that comes to mind for 2022 includes a trip to Florida, attending some great concerts, and field trips with the grandkids to places like Serpent Mound, the Columbus Zoo and the Wilds. Also this year, a deal was completed with other family members concerning the family farm adjacent to the Coffey residence. Ron and Dianna now own the land on the east side of Miami Trace Road, where grandchildren can hike and catch crawdads to their hearts' content. Ron enjoys his morning walks around the property.

Ron attended his 55-year high school reunion and was involved in an expansion project at Adena Greenfield Medical Center that will allow more patients to be seen by specialists.

Dianna and Ron celebrated their 47th wedding anniversary, and she noted that since they first met in 1972 they have been together for 50 years. Where has the time gone?

We hope 2022 has been a good year for you as well, and that 2023 will be filled with faith, hope and good health for everyone who gets this newsletter. May your Christmas be spent in the company of family and loved ones and your blessings be too many to count!

Merry Christmas!
Ron & Dianna
